“Attending the GEB in Nepal has been a tremendous opportunity to learn, network and keep up with entrepreneurship knowledge base. Very good, hands-on information were shared from competent mentors who gave us the best as far as entrepreneurship is concerned. Meeting with fellow youngsters from 12 different countries was the other thing to appreciate about the bootcamp. I really appreciate the time and efforts put forth by the GEB team and the organizers. I'm looking forward to utilize the experience gained with the youth in my country.

# GEB KUALA LUMPUR (4<sup>th</sup> Edition)

“I was amazed by how many passionate juniors and high school students were present at the Bootcamp and how dedicated they are to creating a better world through entrepreneurship. This showed me how youths can be empowered at an early age if they are given the right platform to showcase their skills and I am confident GEB entrepreneurs will develop business groups that will inspire generations. GEB is more than just a Bootcamp, it's a real movement to create global change makers.”

# GEB BANGKOK (5<sup>th</sup> Edition)

“

Best experience of my life, I'd do more of these again and again. For me the GEB was not just an experience but an ACHIEVEMENT! Being part of that enormous, outstanding, amazingly planned platform was just Amazing and it has opened a lot of doors for me also given hope to my rural young people that have lost hope! Mentors, Speakers and Inspirational presentations we heard from different groups had shifted a lot of things from my perspective and given me a lot of hope, I left Bangkok with a load of information that's enough to write a book / novel and also exposure that I got.

- Rejoyce Kgabo Legodi

# GEB KUALA LUMPUR (6<sup>th</sup> Edition)

“Prior to my participation in GEB, I thought businesses only exist to maximize profits as taught in many business schools around the world. But after participating in GEB 2019 at Kuala Lumpur, I came to realize that businesses do not just exist to make money but rather to solve problems. What I found fascinating about GEB is that it empowers the participants with practical skills and ideas by bringing in real entrepreneurs who are already running their own startups or businesses from different industries to share their ideas and experiences with the participants. Another unique experience I had was the networking opportunity. During my participation, I met people from different countries with brilliant business ideas who were always willing to share their innovative ideas. The networking session was one of my favorite seasons of the Bootcamp.

The GEB in Bangkok was a wonderful experience from the beginning to the end. I had the opportunity to work with an amazing multicultural team of students and entrepreneurs that enriched both my personal and professional knowledge. Lastly I had the honour to be part of the winning team of GEB 2022 which was an indescribable moment. My experience at GEB Bangkok was fruitful. From validating my idea to pitching and winning the "Judge's Special Mention" title, it was a journey worth remembering. What makes the Bootcamp a must-attend event is the resourceful people whom you interact with. We received a lot of insights and inputs from almost every mentor. In the end, Cultural Night at GEB was so much fun to learn about different cultures. The Bootcamp might be over but the friendships I made there will stay forever.

# TESTIMONIALS

Attending GEB Bangkok 2019 was one of the best experiences of my life so far. I thank GEB for providing this unique platform to learn from experienced Speakers and mentors from different nations. Meeting and hearing from Nobel Laureate Professor Mohammed Yunus was the best part of the Event. GEB has helped me to learn the Art of Entrepreneurship in depth by providing the opportunity to learn & innovate. Furthermore, GEB Bangkok has given me so many good memories with new friends from different nations which I will cherish for a long time.

GEB was a lifechanging experience, and I would recommend it to any entrepreneur looking to challenge their status quo, collaborate with and learn from like-minded delegates and mentors across the world. The bootcamp gave me a reignited sense of motivation towards achieving my life goals and the network to match. The unique cultural explosion that took place for those long days and nights was like nothing I had ever experienced. It taught me a deeper sense of global unity and appreciation. The downtimes were some of my favorites as we were able to connect and learn more about our fellow young entrepreneurs and mentors; their personal experiences, their advice to help build ourselves and our companies was priceless. All in all, GEB 2018 in Thailand was amazing.

The things I learned, if I can follow them in my life, I can say that then my life would change completely! Met amazing people from around the world, made friends and yeah, these 4 days are never to be forgotten
